

Human Mitochondrial Ab ELISA Kit | MA elisa kit

Mitochondrial (MA) Ab ELISA Kit

CATALOG #
AAA77721

REACTIVITY
Human

PRODUCT SYNONYMS

Mitochondrial Ab; Mitochondrial (MA) Ab ELISA Kit; Mitochondrial (MA) Ab ELISA; MA elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	675
Samples	Serum or plasma
Preparation and Storage	Product should be stored at 2-8 degree C. Product is stable for 24 months from the date of manufacturing.

ADDITIONAL INFORMATION

Related Product Information for MA elisa kit	Intended Uses: The Mitochondrial IgG ELISA Kit is intended for the detection of IgG antibody to Mitochondrial in human serum or plasma. Principle of the Assay: Diluted patient serum is added to wells coated with purified antigen. IgG specific antibody, if present, binds to the antigen. All unbound materials are washed away and the enzyme conjugate is added to bind to the antibody-antigen complex, if present. Excess enzyme conjugate is washed off and substrate is added. The plate is incubated to allow the hydrolysis of the substrate by the enzyme. The intensity of the color generated is proportional to the amount of IgG specific antibody in the sample.
Product Categories/Family for MA elisa kit	Autoimmune Disorders

NCBI AND UNIPROT INFORMATION

NCBI GI #	339896813
NCBI GeneID	10966802
NCBI Accession #	XP_003392203.1
NCBI GenBank Nucleotide #	XM_003392155.1
Molecular Weight	72,515 Da
NCBI Official Full Name	mitochondrial
NCBI Official Symbol	LINJ_03_0600
NCBI Protein Information	mitochondrial; putative MP99
UniProt Protein Name	Putative MP99
UniProt Gene Name	LINJ_03_0600
UniProt Entry Name	E9AG51_LEIIN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
