

## Goat Anti-Human kappa (kappa chain specific) Secondary Antibody

Goat Anti-Human Kappa, Mouse ads-UNLB

| CATALOG # | HOST | REACTIVITY | APPLICATIONS                     |
|-----------|------|------------|----------------------------------|
| AAA78801  | Goat | Human      | Flow Cytometry, Functional Assay |

### PRODUCT SYNONYMS

Goat Anti-Human kappa (kappa chain specific); Polyclonal Secondary Antibody; Goat Anti-Human Kappa; Mouse ads-UNLB; Mouse ads - Purified; Unlabeled Antibody; Goat Anti-Human kappa (kappa chain specific) (Absorbed against mouse Igs); Goat Anti-Human kappa (kappa chain specific) secondary antibody

### PRODUCT SPECIFICATIONS

|                                                                                             |                                                                                                                                                                                         |
|---------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                                                                        | Goat                                                                                                                                                                                    |
| Reactivity                                                                                  | Human                                                                                                                                                                                   |
| Clonality                                                                                   | Polyclonal                                                                                                                                                                              |
| Isotype                                                                                     | IgG                                                                                                                                                                                     |
| Specificity                                                                                 | Reacts with human kappa light chains                                                                                                                                                    |
| Purity/Purification                                                                         | Affinity chromatography on human kappa light chains covalently linked to agarose                                                                                                        |
| Form/Format                                                                                 | The purified (UNLB) antibody is supplied as 1.0 mg purified immunoglobulin in 1.0 mL of 100 mM borate buffered saline, pH 8.2. No preservatives or amine-containing buffer salts added. |
| Applicable Applications for Goat Anti-Human kappa (kappa chain specific) secondary antibody | FCM/FACS (Flow Cytometry)                                                                                                                                                               |
| Source                                                                                      | Pooled antisera from goats hyperimmunized with human myeloma proteins with kappa light chains                                                                                           |
| Cross Absorption                                                                            | Human A light chains; mouse immunoglobulins and pooled sera; may react with kappa light chains from other species                                                                       |
| Preparation and Storage                                                                     | Store at 2- 8 degree C.                                                                                                                                                                 |

### ADDITIONAL INFORMATION

|                                                                                               |                                              |
