

## IgG Secondary Antibody

Goat anti-Rabbit IgG, secondary antibody, Conjugated to Europium 1024

CATALOG #  
**AAA79083**

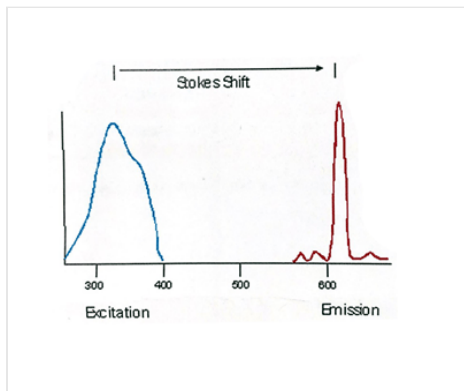

### PRODUCT SYNONYMS

IgG; Goat anti-Rabbit IgG; secondary antibody; Conjugated to Europium 1024; IgG secondary antibody

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                      |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| Form/Format             | Liquid; 50 mM tris (pH 7.8), 0.9% NaCl, 0.05% NaN <sub>3</sub> ,                                                                                     |
| Concentration           | 1 mg/mL (varies by lot)                                                                                                                              |
| Conjugate               | Europium                                                                                                                                             |
| Eu/Ab                   | 7.6                                                                                                                                                  |
| Handling                | We recommend that the investigator determine the appropriate working concentration for their specific application. Avoid exposure to heat and light. |
| Preparation and Storage | Store at 2-8°C. Do Not Freeze.<br>Product should be stored at 2-8°C in the dark and be used within 6 months.                                         |
