

Sheep Immunoglobulin G, IgG ELISA Kit | IgG elisa kit

Sheep Immunoglobulin G, IgG ELISA Kit

CATALOG # AAA80810	REACTIVITY Sheep
------------------------------	----------------------------

PRODUCT SYNONYMS

Immunoglobulin G; IgG; Sheep Immunoglobulin G; IgG ELISA Kit; IgG elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Specificity	This assay has high sensitivity and excellent specificity for detection of sheep IgG. No significant cross-reactivity or interference between sheep IgG and analogues was observed.
Sequence Length	476
Assay Type	Competitive
Samples	Serum, plasma, cell culture supernates, tissue homogenates
Detection Range	15 ug/ml-240 ug/ml
Sensitivity	< 7.5 ug/ml
Intra-assay Precision	Intra-assay Precision (Precision within an assay): CV%<8%. Three samples of known concentration were tested twenty times on one plate to assess.
Inter-assay Precision	Inter-assay Precision (Precision between assays): CV%<10%. Three samples of known concentration were tested in twenty assays to assess.
Preparation and Storage	Unopened test kits should be stored at 2 to 8 degree C upon receipt. Please refer to pdf manual for further storage instructions.

ADDITIONAL INFORMATION

Related Product Information for IgG elisa kit

Principle of the Assay: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with sheep IgG. Standards and samples are pipetted into the wells with a Horseradish Peroxidase (HRP) conjugated antibody specific for sheep IgG. Following a wash to remove any unbound reagent, a substrate solution is added to the wells and color develops in opposite to the amount of sheep IgG in samples. The color development is stopped and the intensity of the color is measured.

NCBI AND UNIPROT INFORMATION

NCBI GI #	185362
NCBI Official Full Name	IgG

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
