

## Human Endostatin ELISA Kit | ES elisa kit

Human Endostatin ELISA Kit

CATALOG #  
**AAA82877**

REACTIVITY  
**Human**

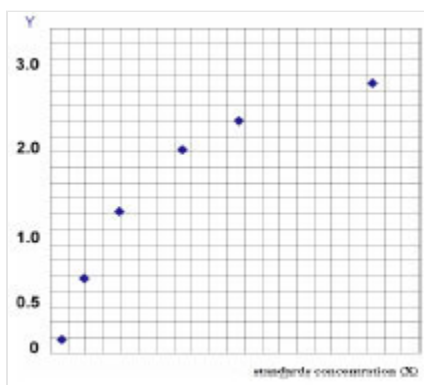

### PRODUCT SYNONYMS

Endostatin; Human Endostatin ELISA Kit; ES elisa kit

### PRODUCT SPECIFICATIONS

|                            |                                                                            |
|----------------------------|----------------------------------------------------------------------------|
| Reactivity                 | Human                                                                      |
| Samples                    | Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate |
| Assay Type                 | Competitive or Sandwich                                                    |
| Detection Range            | 2.5-50ng/mL                                                                |
| Sensitivity                | 0.1ng/mL                                                                   |
| Highest Standards          | 50ng/mL Sandwich                                                           |
| Concentration of Standards | Concentration of Standards                                                 |
| Preparation and Storage    | Store all reagents at 2-8 degree C.                                        |

### ADDITIONAL INFORMATION

Product Categories/Family for ES elisa kit    [Cardiovascular](#)

### NCBI AND UNIPROT INFORMATION

|                         |                     |
|-------------------------|---------------------|
| NCBI GI #               | 194476216           |
| NCBI Official Full Name | endostatin, partial |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
