

## Human Apolipoprotein M ELISA Kit | APOM elisa kit

Human Apolipoprotein M ELISA Kit

CATALOG #  
**AAA83749**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Apolipoprotein M; Human Apolipoprotein M ELISA Kit; APOM elisa kit

### PRODUCT SPECIFICATIONS

|                            |                                                                            |
|----------------------------|----------------------------------------------------------------------------|
| Reactivity                 | Human                                                                      |
| Samples                    | Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate |
| Assay Type                 | Sandwich                                                                   |
| Detection Range            | 10-250ng/mL                                                                |
| Sensitivity                | 1.0ng/mL                                                                   |
| Highest Standards          | 250ng/mL                                                                   |
| Concentration of Standards | Concentration of Standards                                                 |
| Preparation and Storage    | Store all reagents at 2-8 degree C.                                        |

### NCBI AND UNIPROT INFORMATION

|                  |             |
|------------------|-------------|
| NCBI GI #        | 22091452    |
| NCBI GeneID      | 55937       |
| NCBI Accession # | NP_061974.2 |

|                                  |                                                                               |
|----------------------------------|-------------------------------------------------------------------------------|
| NCBI GenBank Nucleotide #        | <a href="#">NM_019101.2</a>                                                   |
| Molecular Weight                 | 13,051 Da                                                                     |
| NCBI Official Full Name          | apolipoprotein M isoform 1                                                    |
| NCBI Official Synonym Full Names | apolipoprotein M                                                              |
| NCBI Official Symbol             | APOM                                                                          |
| NCBI Official Synonym Symbols    | G3a; NG20; apo-M; HSPC336                                                     |
| NCBI Protein Information         | apolipoprotein M; protein G3a; NG20-like protein; alternative name: G3a, NG20 |
| UniProt Protein Name             | Apolipoprotein M                                                              |
| UniProt Gene Name                | <b>APOM</b>                                                                   |
| UniProt Synonym Gene Names       | G3A; NG20; HSPC336; Apo-M; ApoM                                               |
| UniProt Entry Name               | APOM_HUMAN                                                                    |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
