

Rat Angiotensinase A ELISA Kit | ATA elisa kit

Rat Angiotensinase A ELISA Kit

CATALOG #
AAA86583

REACTIVITY
Rat

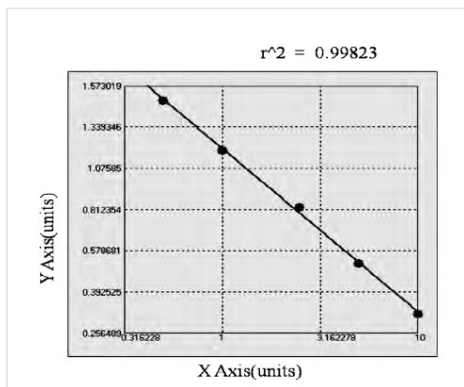

PRODUCT SYNONYMS

Angiotensinase A; Rat Angiotensinase A ELISA Kit; ATA elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Detection Range	1- 25ng/mL
Sensitivity	0.1ng/mL
Intended Uses	This ATA ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Rat ATA. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for ATA elisa kit

Principle of the assay: ATA ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-ATA antibody and an ATA-HRP conjugate. The assay sample and buffer are incubated together with ATA-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the ATA concentration since ATA from samples and ATA-HRP conjugate compete for the anti-ATA antibody binding site. Since the number of sites is limited, as more sites are occupied by ATA from the sample, fewer sites are left to bind ATA-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The ATA concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	190404534
NCBI GeneID	6386035
NCBI Accession #	YP_001965065.1
NCBI GenBank Nucleotide #	NC_010847.2
NCBI Official Full Name	Ata
NCBI Official Symbol	ata
NCBI Protein Information	antitoxin of addiction system; contains HTH motif; Ata

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
