

Sheep Plasminogen ELISA Kit | Plg elisa kit

Sheep Plasminogen ELISA Kit

CATALOG #
AAA88829

REACTIVITY
Sheep

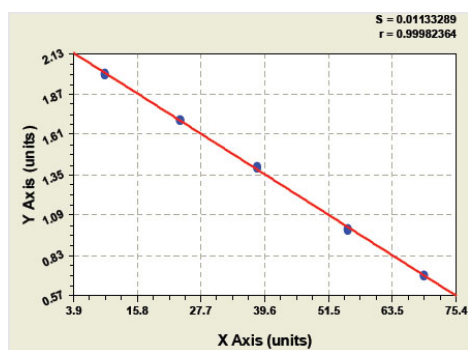

PRODUCT SYNONYMS

Plasminogen; Sheep Plasminogen ELISA Kit; Plg elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	1.0 ng/mL.
Intended Uses	This Plg ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep Plg. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for Plg elisa kit

Principle of the Assay: Plg ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-Plg antibody and an Plg-HRP conjugate. The assay sample and buffer are incubated together with Plg-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the Plg concentration since Plg from samples and Plg-HRP conjugate compete for the anti-Plg antibody binding site. Since the number of sites is limited, as more sites are occupied by Plg from the sample, fewer sites are left to bind Plg-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The Plg concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	190026
NCBI GeneID	5340
Molecular Weight	90,569 Da
NCBI Official Full Name	plasminogen
NCBI Official Synonym Full Names	plasminogen
NCBI Official Symbol	PLG
NCBI Protein Information	plasminogen
UniProt Protein Name	Plasminogen
UniProt Gene Name	PLG
UniProt Entry Name	PLMN_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
