

Porcine Transforming Growth Factor Beta Stimulated Protein Clone 22 ELISA Kit | TSC22 elisa kit

Porcine Transforming Growth Factor Beta Stimulated Protein Clone 22 ELISA Kit

CATALOG #
AAA89386

REACTIVITY
Porcine

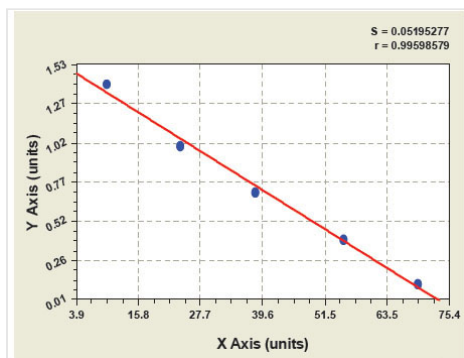

PRODUCT SYNONYMS

Transforming Growth Factor Beta Stimulated Protein Clone 22; Porcine Transforming Growth Factor Beta Stimulated Protein Clone 22 ELISA Kit; TSC22 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Porcine
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL.
Intended Uses	This TSC22 ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Porcine TSC22. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for TSC22 elisa kit

Principle of the assay: TSC22 ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-TSC22 antibody and an TSC22-HRP conjugate. The assay sample and buffer are incubated together with TSC22-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the TSC22 concentration since TSC22 from samples and TSC22-HRP conjugate compete for the anti-TSC22 antibody binding site. Since the number of sites is limited, as more sites are occupied by TSC22 from the sample, fewer sites are left to bind TSC22-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The TSC22 concentration in each sample is interpolated from this standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
