

Sheep Selenoprotein 1 ELISA Kit | SEPE-1 elisa kit

Sheep Selenoprotein 1 ELISA Kit

CATALOG #
AAA89480

REACTIVITY
Sheep

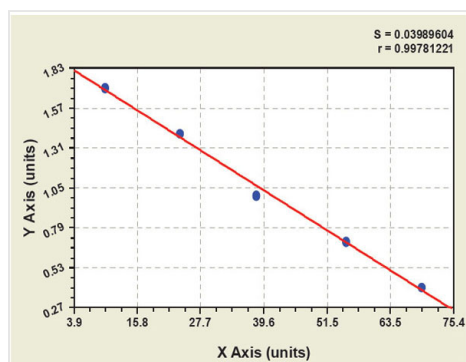

PRODUCT SYNONYMS

Selenoprotein 1; Sheep Selenoprotein 1 ELISA Kit; SEPE-1 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL.
Intended Uses	This SEPE-1 ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep SEPE-1. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for SEPE-1 elisa kit

Principle of the assay: SEPE-1 ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-SEPE-1 antibody and an SEPE-1-HRP conjugate. The assay sample and buffer are incubated together with SEPE-1-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the SEPE-1 concentration since SEPE-1 from samples and SEPE-1-HRP conjugate compete for the anti-SEPE-1 antibody binding site. Since the number of sites is limited, as more sites are occupied by SEPE-1 from the sample, fewer sites are left to bind SEPE-1-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The SEPE-1 concentration in each sample is interpolated from this standard curve.

Product Categories/Family for SEPE-1 elisa kit

Cardiovascular

NCBI AND UNIPROT INFORMATION

NCBI GI #	82547872
Molecular Weight	12,991 Da
NCBI Official Full Name	selenoprotein 1
UniProt Protein Name	Selenoprotein 1
UniProt Gene Name	Sel1
UniProt Entry Name	Q2VC80_LEIMA

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
