

Goat Interferon alpha ELISA Kit | IFN-alpha elisa kit

Goat Interferon alpha ELISA Kit

CATALOG #
AAA90703

REACTIVITY
Goat

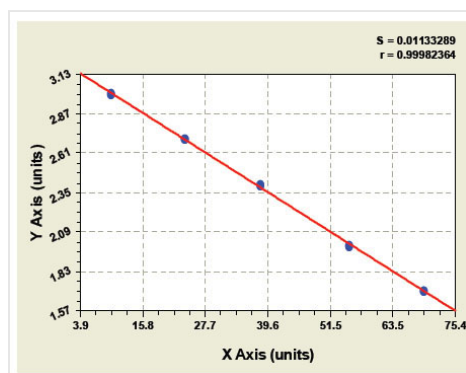

PRODUCT SYNONYMS

Interferon alpha; Goat Interferon alpha ELISA Kit; Goat Interferon a ELISA Kit; IFN-alpha elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Goat
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	1.0 pg/mL.
Intended Uses	This IFN-alpha ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Goat IFN-alpha. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for IFN-alpha elisa kit

Principle of the Assay: IFN-alpha ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-IFN-alpha antibody and an IFN-alpha-HRP conjugate. The assay sample and buffer are incubated together with IFN-alpha-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the IFN-alpha concentration since IFN-alpha from samples and IFN-alpha-HRP conjugate compete for the anti-IFN-alpha antibody binding site. Since the number of sites is limited, as more sites are occupied by IFN-alpha from the sample, fewer sites are left to bind IFN-alpha-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The IFN-alpha concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	306902
NCBI GeneID	3445
Molecular Weight	21,989 Da
NCBI Official Full Name	interferon-alpha
NCBI Official Synonym Full Names	interferon, alpha 8
NCBI Official Symbol	IFNA8
NCBI Official Synonym Symbols	IFN-alphaB
NCBI Protein Information	interferon alpha-8; leIF B; IFN-alpha-8; interferon alpha-B; interferon alpha-B'; interferon alpha-B2; interferon alpha type 201
UniProt Protein Name	Interferon alpha-8
UniProt Gene Name	IFNA8
UniProt Synonym Gene Names	IFN-alpha-8; LeIF B
UniProt Entry Name	IFNA8_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
