

Porcine Erythropoietin Receptor ELISA Kit | EPOR elisa kit

Porcine Erythropoietin Receptor ELISA Kit

CATALOG #
AAA93252

REACTIVITY
Porcine

PRODUCT SYNONYMS

Erythropoietin Receptor; Porcine Erythropoietin Receptor ELISA Kit; EPOR elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Porcine
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL.
Intended Uses	This EPOR ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Porcine EPOR. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for EPOR elisa kit

Principle of the Assay: EPOR ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-EPOR antibody and an EPOR-HRP conjugate. The assay sample and buffer are incubated together with EPOR-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the EPOR concentration since EPOR from samples and EPOR-HRP conjugate compete for the anti-EPOR antibody binding site. Since the number of sites is limited, as more sites are occupied by EPOR from the sample, fewer sites are left to bind EPOR-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The EPOR concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	4503591
NCBI GeneID	2057
NCBI Accession #	NP_000112.1
NCBI GenBank Nucleotide #	NM_000121.3
Molecular Weight	35,809 Da
NCBI Official Full Name	erythropoietin receptor
NCBI Official Synonym Full Names	erythropoietin receptor
NCBI Official Symbol	EPOR
NCBI Official Synonym Symbols	EPO-R
NCBI Protein Information	erythropoietin receptor
UniProt Protein Name	Erythropoietin receptor
UniProt Gene Name	EPOR
UniProt Synonym Gene Names	EPO-R
UniProt Entry Name	EPOR_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
