

Human Soluble Glucoprotein 130 ELISA Kit | sGP130 elisa kit

Human Soluble Glucoprotein 130 ELISA Kit

CATALOG #
AAA95121

REACTIVITY
Human

PRODUCT SYNONYMS

Soluble Glucoprotein 130; Human Soluble Glucoprotein 130 ELISA Kit; sGP130 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Detection Range	2.5-50ng/mL
Sensitivity	0.1ng/mL
Intended Uses	This sGP130 ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Human sGP130. This ELISA kit for research use only, not for therapeutic applications
!Intended Uses	This sGP130 ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Human sGP130. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for sGP130 elisa kit	Principle of the Assay: sGP130 ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-sGP130 antibody and an sGP130-HRP conjugate. The assay sample and buffer are incubated together with sGP130-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the sGP130 concentration since sGP130 from samples and sGP130-HRP conjugate compete for the anti-sGP130 antibody binding site. Since the number of sites is limited, as more sites are occupied by sGP130 from the sample, fewer sites are left to bind sGP130-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The sGP130 concentration in each sample is interpolated from this standard curve.
--	--

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
