

## Monkey Regulated On Activation, Normal T-Cell Expressed and Secreted ELISA Kit | RANTES elisa kit

Monkey Regulated On Activation, Normal T-Cell Expressed and Secreted ELISA Kit

CATALOG #

**AAA97729**

REACTIVITY

**Monkey**

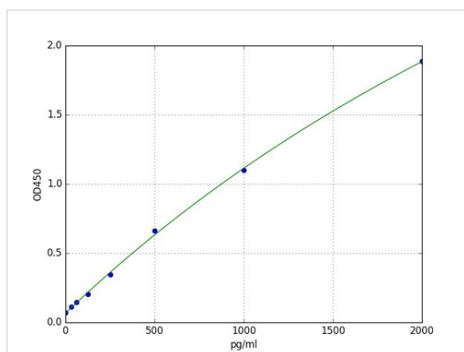

### PRODUCT SYNONYMS

Regulated On Activation; Normal T-Cell Expressed and Secreted; Monkey Regulated On Activation; Normal T-Cell Expressed and Secreted ELISA Kit; RANTES elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                              |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Monkey                                                                                                                                                       |
| Sequence Length         | 91                                                                                                                                                           |
| Assay Type              | Sandwich ELISA, Double Antibody                                                                                                                              |
| Samples                 | Serum, Plasma, Cell Culture Supernatant, cell or tissue lysate, Other liquid samples                                                                         |
| Detection Range         | 31.25-2000pg/ml                                                                                                                                              |
| Sensitivity             | 18.75pg/ml                                                                                                                                                   |
| Preparation and Storage | Store entire kit at 2-8C for short-term. For longer-term, please store the microplate & standard at -20C, while the remaining reagents can be stored at 2-8C |

### NCBI AND UNIPROT INFORMATION

|                                  |                                |
|----------------------------------|--------------------------------|
| NCBI GI #                        | 2905632                        |
| NCBI GeneID                      | 6352                           |
| Molecular Weight                 | 9,990 Da                       |
| NCBI Official Full Name          | RANTES                         |
| NCBI Official Synonym Full Names | chemokine (C-C motif) ligand 5 |
| NCBI Official Symbol             | CCL5                           |

|                               |                                                        |
|-------------------------------|--------------------------------------------------------|
| NCBI Official Synonym Symbols | SISd; eoCP; SCYA5; RANTES; TCP228; D17S136E; SIS-delta |
| NCBI Protein Information      | C-C motif chemokine 5                                  |
| UniProt Protein Name          | C-C motif chemokine 5                                  |
| UniProt Gene Name             | <b>CCL5</b>                                            |
| UniProt Synonym Gene Names    | D17S136E; SCYA5; TCP228                                |
| UniProt Entry Name            | CCL5_HUMAN                                             |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
